

Proposed research areas for EME commissioned calls

Please note that research in the following broad areas is likely to be commissioned during the next year, although the titles and timings may be subject to change.

The individual commissioning briefs, which will be published when the calls open, will define the details of the calls.

Topic	Proposed opening date
Neurodegenerative Disorders	March 2018 TBC
Type 2 Diabetes	March 2018 TBC
Improving Safety and Efficacy Through Targeted Drug Delivery	March 2018 TBC
