I AM RESEARCH

Be part of the solution
Every year, more than half a million people help improve healthcare and develop life-saving treatments by taking part in health and social care research.

This year, the NHS turns 70.

Whether you are a patient or a healthy member of the public, by supporting health research you can help to shape the health and care that the NHS delivers over the next 70 years.

To find out more, ask your doctor, nurse or healthcare professional, or visit www.iamresearch.co.uk
