The NIHR Team Science Award Round 2 aims to bring together individuals with an interest in Applied Health and Social Care Research Methodology to form new interdisciplinary collaborations and facilitate research in areas of need.

Applications must be made by interdisciplinary teams. You and your team do not have to have attended or expressed an interest in the Team Science Camp to apply to this award.

This is a development award designed to support interdisciplinary research teams to collaborate on a future application to other research programmes, expand their research network and develop capacity in the relevant field.

Strategic priorities

The 3 strategic priorities for this theme are:

- methodology for diagnostic test evaluation and prediction modelling
- evaluation methodology
- methodology for epidemiology
